

Introducing the New PerioPassion! Seminar™ DVD Series AGD-approved 16 CE Hours on "THE" Leading-Edge Protocol for Treating Periodontal Disease

exclusively by Lisa Marie Samaha, DDS, FAGD, PC

American Academy of Periodontology, Associate Member American Academy of Cosmetic Dentistry, Member

Finally...a **clinically complete periodontal diagnosis and treatment system** to predictably restore oral and systemic health to your patients. This is a system which **generates quality referrals** who cherish and value what you can offer. And a method which increases your professional satisfaction and financial success in ways you haven't yet imagined.

With the growing demand for the PerioPassion! Seminar™ and my desire to get its information into the hands of as many practices as possible, I have created a **professionally produced DVD series** of the 16-hour, AGD/PACE approved PerioPassion! Seminar, which is now available for purchase.

Although there is nothing like the excitement of the live seminar, the cost and logistics of team travel, lodging and dining make it challenging to come to a seminar like this. That's why, **for a fraction of all those costs**, you can have the entire professionally produced course right now to review with your team (including any future employees) as often as necessary!

This is what is included in your package:

- **LIVE video training and demonstrations** of actual patient interactions
- **Straightforward and in-depth** periodontal protocols that patients and team will easily understand
- The Perio Arts Institute's **step-by-step system** for periodontal disease
- A myriad of **specific, successful tips** for marketing and practice management
- **Extraordinarily effective verbal skills** in live and document form, for the ongoing training of your team and for perio and larger case acceptance

You can also have the entire collection of Oral-Systemic Research, the DVD series, and a data CD manual full of thousands of valuable letters, documents and marketing pieces that I have personally developed to make this process work within my own practice.*

Join me on this exciting new journey into leading-edge periodontal care by ordering today or calling **800-997-9820**.

I look forward to getting to know you and learn how I might help you, your team, your practice and your patients soar to new and exciting heights of "GREATER health"—physically and financially!

** Before using my marketing concepts, consult your state dental board.*

"I highly recommend her seminar, and now her PerioPassion! DVD, to anyone who wants to **be where dentistry is going**. Her message will excite even the most skeptical participant."

Dr Charles Blair
Practice Management Consultant

Have These DVD's "For Free"

Purchase the DVD series now and begin to implement the material immediately. Though all of the information you need is contained in the DVD's and included materials, you may still want to attend a LIVE PerioPassion! Seminar. After all, there is no substitute to learning such revolutionary and critical information in the LIVE classroom. Because of that, I am willing to make you this astounding offer:

After you've invested in the PerioPassion! DVD series, you may attend any PerioPassion! Seminar within one full year of your purchase and receive a credit of \$1,947 towards your seminar tuition.

Why? Because I am so committed to sharing this knowledge with like-minded dental professionals who want the best for their patients and their practice.
